

Embed AI

Archetype training to support the DoD Workforce

Join the Embed AI Cohort to broaden your skill sets and become part of the DoD AI-ready workforce

The Joint Artificial Intelligence Center (JAIC) Human Capital Transformation (HCT) Team develops, directs and coordinates AI training opportunities across the DoD and is pleased to offer this Embed AI course pilot to DoD military and civilian personnel.

In addition to Embed AI, the JAIC provides training for all six archetypes identified in the DoD AI Education Strategy.

Why Take Embed AI

In Embed AI you will learn how to ensure AI tools are used to support mission. You will learn how to manage data, troubleshoot models, and provide feedback to AI designers and developers.

This course could be a good fit if you are a technician who will be embedded with DoD AI end-users, have an interest in managing data streams for AI, and have a desire to learn about AI tools and coding.

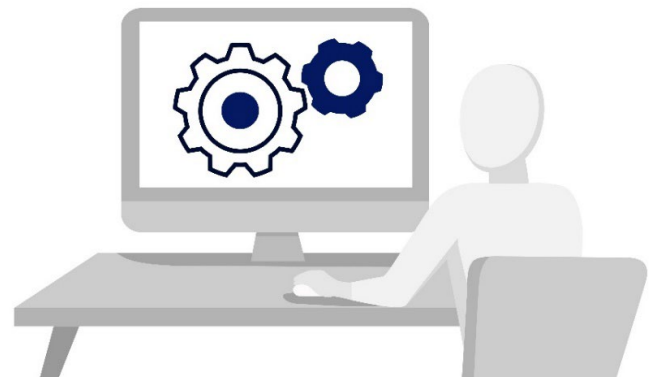

Embed AI Outcomes

The JAIC's Embed AI program equips you with key knowledge and skills to:

- Solve infrastructure constraints
- Analyze and aggregate data in preparation for use by ethical AI applications
- Solve AI application issues for end users to maintain functionality

Details and How To Sign Up

The estimated launch of the next Embed AI cohort is in August 2022. If you have any questions, please reach out to osd.ncr.dod-cio.mbx.jaic-hct@mail.mil. Please include Embed AI in the subject line.

The JAIC's HCT team prepares the DoD workforce for wide scale adoption of Artificial Intelligence (AI). Bringing together DoD stakeholders to synchronize efforts, the HCT team oversees implementation of the DoD AI Education Strategy and leads workforce development for an AI functional community.
